

October 2009

HYDRO TEAM MEMBERS ALL INDUSTRIAL PARTNERS OF THE UNIVERSITY OF NEW HAMPSHIRE / CCOM USA

After IVS 3D, L-3 Nautronix and SevenC's, ATLIS has now become too an industrial partner of CCOM, the American Center for Coastal & Ocean Mapping, Joint Hydrographic Center of the University of New Hampshire.

CCOM is a program established by the University of New Hampshire, aimed at creating a national center for expertise in ocean mapping and hydrographic sciences. The center expands the scope of interaction and cooperation with the private sector, other government agencies and universities.

The HydroTeam members are proud to be partners of this leading university as to coastal and ocean mapping.
